

FINDING SOLUTIONS, NOT JUST IMAGINING

Permanent seismic-grade S320GD/S350GD Z275 light-gauge steel framing kits, luxury modern steel villas, hillside cantilever residences, and full interior fit-out packages by DEKSACH d.o.o.

**APPLICABLE ENGINEERING, COMPLIANCE & QUALITY STANDARDS**

EN 10346 (S320GD / S350GD + Z275), Eurocode 3 Part 1-3 (EN 1993-1-3), Eurocode 8 Seismic Design, ISO 1461

DIVISION PROFILE & SUPPLY ARCHITECTURE

Light-Gauge Steel Houses, Villas & Building Systems

Combining precision CAD/CAM roll-formed galvanized steel framing with contemporary residential architecture, DEKSACH d.o.o. delivers permanent multi-decade steel villas and structural LGSF kits engineered for extreme seismic zones, coastal wind loads, and high European energy-efficiency classes.

Key Export & Engineering Highlights

- CNC roll-formed S320GD/S350GD structural steel profiles with Z275 hot-dip zinc coating
- Permanent residential durability exceeding 70+ years with superior seismic ductility
- Bespoke cantilevered, sloped-hillside, and curtain-wall luxury villa engineering
- Optional complete interior fit-out packages including kitchens, MEP, flooring, and bathrooms

Commercial & Logistics Execution

Contracting Desk:

DEKSACH d.o.o. (Zagreb, Hrvatska-Croatia)

Incoterms 2020:

EXW, FOB, CFR, CIF, DAP & Turnkey Project Delivery

Quality Assurance:

Independent SGS / Bureau Veritas / Intertek pre-shipment inspection

Settlement Structures:

Corporate Proforma, Irrevocable Documentary L/C, SBLC, or Escrow

CAT-03 / 01

CAT-03 • STRUCTURAL LGSF KITS

Light-Gauge Steel Framing (LGSF) Structural Kits & Roll-Formed Systems

Precision CNC roll-formed S320GD/S350GD Z275 galvanized light-gauge steel structural framing kits, floor joists, and roof trusses exported to developers and contractors via DEKSACH d.o.o.

Export & Project Scope: Residential housing developers, dry-construction contractors, multi-story infill wall framing, rooftop building extensions, and modular factory assemblers.

TECHNICAL SPECIFICATIONS

Steel Grade & Coating	EN 10346 Structural S320GD / S350GD + Z275 (275 g/m ² hot-dip zinc) or AZ150 AluZinc
Profile Web Sizes	90 mm, 100 mm, 140 mm, 150 mm, and 200 mm C/U studs, tracks, and lattice joists
CNC Precision	CAD/CAM automated punching, dimpling, service holes, swaging, and inkjet part coding
Design Codes	Eurocode 3 Part 1-3 (EN 1993-1-3), AISI S100, and Eurocode 8 seismic ductility
Kit Supply Scope	Flat-bundled numbered steel frames, structural fasteners, hold-down anchors, and shop drawings

KEY SUPPLY ADVANTAGES

- Millimetric CNC accuracy eliminating on-site cutting waste, timber warping, and termite risk
- High strength-to-weight ratio ideal for weak soils, seismic zones, and rooftop story additions
- Pre-punched MEP service slots accelerating electrical and plumbing rough-in by up to 50%

CAT-03 / 02

CAT-03 • LUXURY DUPLEX VILLAS

Modern Two-Story Light Steel Villas & Contemporary Residences

Two-story luxury modern steel-frame villas engineered to Eurocode 3 seismic and wind-load standards with minimalist flat/pitched roofs, panoramic glass facades, and A-class insulation by DEKSACH d.o.o.

Export & Project Scope: Luxury gated residential developments, private coastal and alpine villas, real-estate investment estates, and executive diplomatic residences.

TECHNICAL SPECIFICATIONS

Gross Floor Areas	140 m ² to 450+ m ² customizable 3+1, 4+1, and 5+2 duplex villa architectures
Wall Multi-Layer Build	OSB/Board + breathable membrane + 140 mm mineral wool + ETICS/composite rainscreen + double gypsum
Thermal Performance	External wall U-value 0.18 – 0.24 W/m ² K compliant with European NZEB energy targets
Seismic & Wind Rating	Engineered for PGA up to 0.4g+ seismic zones and 150+ km/h coastal wind pressures
Glazing & Terraces	Thermal-break aluminum panoramic joinery, double-height lounges, and steel terrace decks

KEY SUPPLY ADVANTAGES

- Permanent multi-generation luxury villa construction with zero shrinkage or cracking
- Up to 10% more net usable interior floor area compared to thick masonry/concrete walls
- Superior thermal and acoustic envelope cutting heating and cooling energy demand by up to 45%

CAT-03 / 03

CAT-03 • SINGLE-STORY LIVING

Single-Story Turnkey Light Steel Family Houses & Bungalows

Single-story turnkey light-steel family homes and barrier-free bungalows engineered with multi-layer thermal/acoustic insulation packages for fast four-season residential living via DEKSACH d.o.o.

Export & Project Scope: Suburban single-family housing plots, retirement & barrier-free villages, holiday home developments, and municipal residential projects.

TECHNICAL SPECIFICATIONS

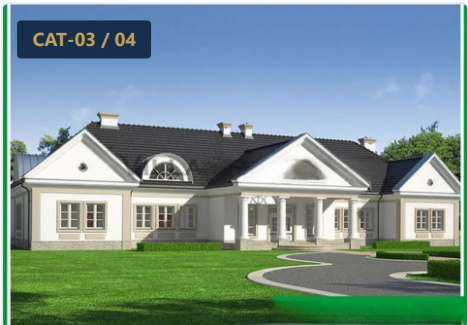

Standard Layouts	65 m ² (2+1), 95–125 m ² (3+1), and 140–200 m ² (4+1) veranda bungalow plans
Roof Truss System	Galvanized LGSF clear-span roof trusses with standing-seam metal, shingle, or clay tile
Insulation Core	100–150 mm mineral wool wall cavity + 200 mm ceiling insulation + vapor barrier
Fire Resistance	60 to 120 minutes structural fire resistance (REI 60 / REI 120) with fire-rated boards
Erection Timeline	2 to 4 weeks on-site structural and weather-tight shell completion

KEY SUPPLY ADVANTAGES

- Step-free ergonomic single-level floor plans with covered verandas and garden integration
- Dry construction methodology enabling year-round installation even in winter climates
- Complete structural shell or full turnkey export kits tailored to local building permits

Web Spec Sheet: <https://deksach.eu/product/single-story-steel-houses/>

CAT-03 / 04

CAT-03 • SIGNATURE ARCHITECTURE

Architectural Hillside & Cantilevered Hybrid Steel Luxury Villas

Custom architectural sloped-terrain and dramatic cantilevered luxury villas combining heavy hot-rolled structural steel beams with precision LGSF envelopes through DEKSACH d.o.o.

Export & Project Scope: Steep coastal cliffs, alpine mountain plots, lakefront panoramic estates, and signature architect-designed luxury hospitality pavilions.

TECHNICAL SPECIFICATIONS

Hybrid Structural System	Hot-rolled S355 steel primary portal/cantilever beams + S350GD Z275 LGSF infill walls
Cantilever Projections	Engineered 2.5 m to 6.0+ m dramatic overhang projections and infinity terrace decks
Sloped Site Adaptation	Stepped split-level or stilt/pier foundations minimizing costly rock excavation
Facade Engineering	Minimal-frame panoramic curtain walls, sintered stone, corten/composite, and thermowood
Structural Analysis	3D FEM dynamic seismic, wind-tunnel pressure, and deflection control engineering

KEY SUPPLY ADVANTAGES

- Transforms challenging steep or rocky plots into high-value panoramic architectural residences
- 65% lighter dead-load than reinforced concrete, drastically reducing hillside foundation costs
- Full collaboration with client architects to translate bespoke 3D concepts into exportable kits

Web Spec Sheet: <https://deksach.eu/product/architectura-l-hillside-cantilever-steel-villas/>

CAT-03 • TURNKEY INTERIOR FIT-OUT

Turnkey Steel House Interior Fit-Out, Kitchen, Bathroom & MEP Packages

Complete factory-consolidated interior fit-out packages for steel villas and housing estates—including modular kitchens, porcelain bathrooms, flooring, doors, lighting, and MEP via DEKSACH d.o.o.

Export & Project Scope: Multi-villa real-estate developers, remote island/resort construction projects, and private buyers seeking single-source turnkey interior completion.

TECHNICAL SPECIFICATIONS

Kitchen Cabinetry	Custom modular MDF-lam / acrylic / lacquer kitchens with quartz countertops & sinks
Bathrooms & Sanitary	Rectified porcelain tiles, wall-hung WC cisterns, walk-in glass showers, brass faucets
Flooring & Doors	AC4/AC5 laminate, SPC waterproof vinyl or engineered parquet + lacquered interior doors
MEP & Smart Home	Halogen-free wiring, switchgear, PPR/PEX plumbing, underfloor heating & VRF readiness
Architectural Lighting	Recessed linear LED profiles, spot luminaires, exterior facade sconces, and switches

KEY SUPPLY ADVANTAGES

- Eliminates fragmented local subcontractor sourcing by shipping every interior finish in one package
- Pre-dimensioned to match exact CAD villa room schedules with zero quantity shortfalls
- Curated European Contemporary, Mediterranean Warm, and Alpine Minimalist material palettes

STRUCTURED B2B PROCUREMENT

Submit your Bill of Quantities (BOQ), architectural drawings, target destination port, and preferred Incoterms directly to our corporate trade desk for a formal proforma quotation.

STEP 01

Share product codes, quantities, architectural plans, or commodity grade specifications with destination port details.

STEP 02

Receive a detailed commercial offer including technical datasheets, container loading plan, production lead time, and CIF/FOB pricing.

STEP 03

Execute standardized international sales contracts through DEKSACH d.o.o. with structured bank payment instruments.

STEP 04

Third-party pre-shipment verification, export customs clearance, EUR.1 / Certificate of Origin, and containerized sea/air dispatch.
